

# Japanese Business Establishments in India

January, 2015  
Embassy of Japan in India, JETRO

## About this list

The Embassy of Japan in New Delhi, Consulates General of Japan in Mumbai/ Chennai/ Kolkata, Consulate of Japan in Bangalore, and JETRO have been collectively compiled this list, with the cooperation of various Japanese chambers of commerce and industries located in India. The findings of our survey this year (as of October, 2014) are as follows;

(1) The **total number of Japanese companies registered in India is 1,209** with an increase of 137 companies (13% growth) as compared to 1,072 in October 2013.

(2) The **total number of Japanese business establishments in India is 3,961** with an increase of 1,419 establishments (56% growth) as compared to 2,542 in October 2013.

(Please note that in case a company has business operations at multiple sites, each of them has a separate entry in this list. Kindly refer following "definition" for further details).

## Definition of "Japanese Business Establishment" in India

In principle, any of the following is considered as a Japanese Business Establishment for the purpose of this survey:

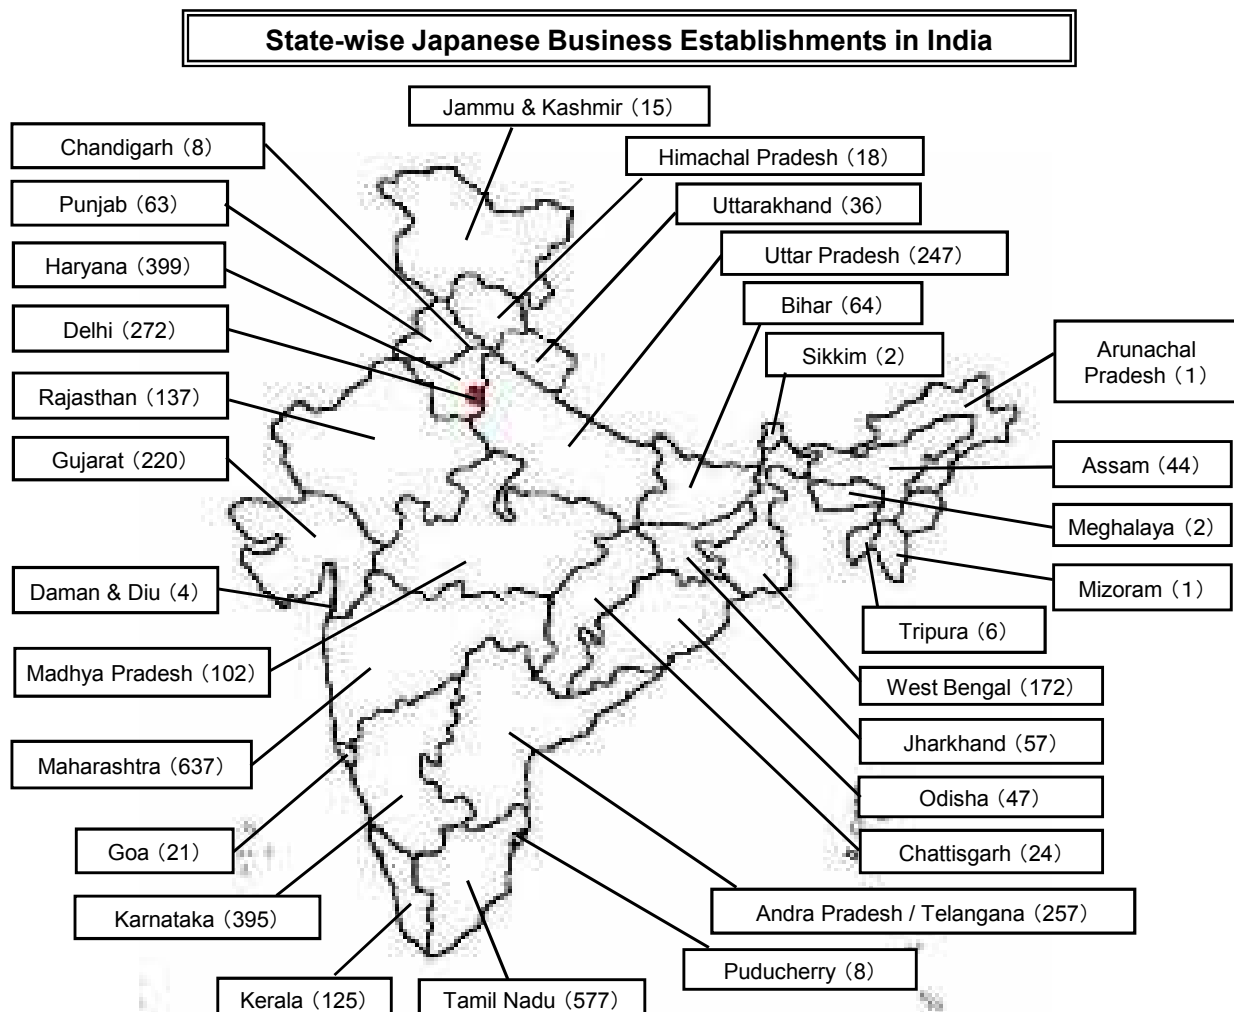

1. Liaison Office/ Branch Office etc of a Japanese company in India (as a foreign entity)
2. Indian Subsidiary (Wholly Owned/ Joint Venture) of a Japanese company, in the form of:  
(A) Head Office, (B) Manufacturing Unit, or (C) Branch Office/ Business Office etc

*\* Franchisee or Dealer are not counted under this category.*

*\* In case of JVs, only those companies where Japanese company has more than 10% shareholding are counted under this category.*

3. Business Enterprise founded in India by Japanese national(s)

◆ This list is arranged in alphabetical order as per the location.

## State-wise Number of Japanese Business Establishments

(Note 1): Figures between Oct 2008 and Oct 2011 include Japanese Business Establishments without regular-basis Japanese staffs. However, Oct 2010 onwards, being based on the defined criteria of the Japanese Business Establishments in India more carefully, it is observed a slight decline of Japanese Business Establishments in some areas.

(Note 2): In order to capture the business scenario of Japanese Companies in India more precisely, all the Business Establishments irrespective of regular-basis Japanese staffs are taken into consideration Oct. 2013 onwards. Consequently, some areas show a significant increase in numbers.

(Note 3): The increase in the number of Japanese business establishments during the one year (October 2013 to October 2014) under the survey is very large, mainly due to the following reasons: In case where a Japanese company forms a JV with an Indian partner, the newly formed JV will also have the already established direct branch offices of that Indian partner, which will result in the immediate increase of the total number of business establishments. There are several such cases found during the survey, especially in insurance and transport sectors. There were also quite a number of Japanese business establishments which have not been captured in our previous surveys.

(Note 4): Though Andhra Pradesh has been divided into two states: Andhra Pradesh and Telangana in June 2014, the Japanese business establishments operating in both the states are counted under Andhra Pradesh, as Hyderabad city which belongs to Telangana State will remain the common state capital for both the states for next 10 years.
