

Japanese Business Establishments in India

November, 2012

Embassy of Japan in India

About this list

The Embassy of Japan in New Delhi and Consulates General of Japan in Mumbai, Chennai and Kolkata, and The Consulate of Japan in Bangalore, have respectively collated information based on our research every year as well as information provided by the various regional Japanese Chambers of Commerce in India, Japan External Trade Organization (JETRO) in India, and others. Our findings from this year's survey (as of Oct 1st, 2012) are as follows;

(1) A total of 1804 establishments of Japanese business being operated in India, which is an increase of 382 establishments (26.8%) over the last year. (Please note that in case a company has business operations at multiple sites, each of them has a separate entry in this list. Please also see "criteria" provided below.)

(2) 926 Japanese companies registered in India (in terms of the name of company registered in India) were observed to operate in India, which is an increase of 114 companies (14.0%) over the last year.

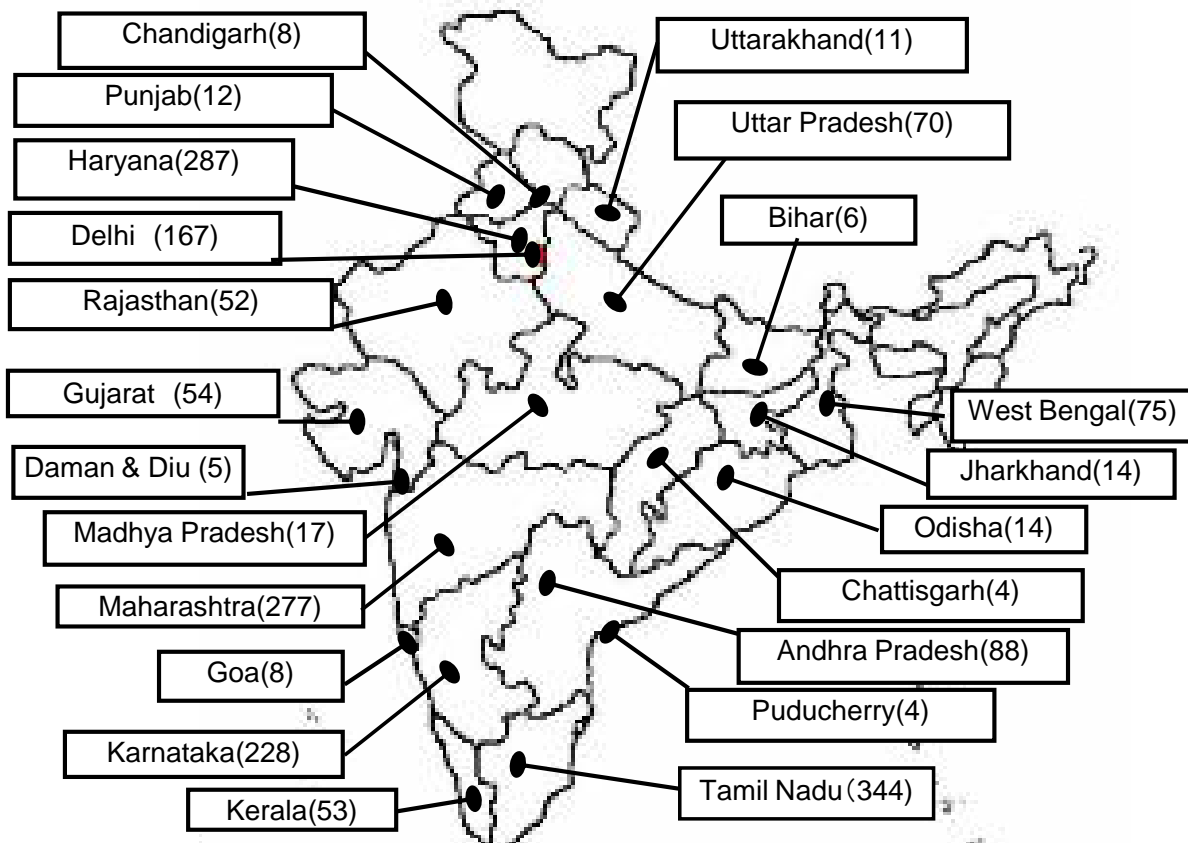

The growth rate of the Japanese companies newly entering India is as high as average years, and what is more remarkable is that the growth rates of its establishments are at a much higher level, which indicates that the Japanese companies which have already entered India are steadily expanding their business in India.

Criteria for a "Japanese Business Establishment" in India

In principle, any of the following is considered as a Japanese business establishment for the purpose of this list. However, some exceptional cases may also be included depending upon circumstances.

1. Liaison/Branch/Project Office of a Japanese company in India (as a foreign entity)
2. Indian subsidiary (wholly owned/joint venture) of a Japanese company, in the form of:
 - (a) head office, (b) manufacturing unit, or (c) branch office with Japanese national(s) staying on a regular basis
3. Business enterprise founded in India by Japanese national(s)

Number of Japanese companies registered in India	550	627	725	812	926

(Remarks): Figures between Oct 2008 and Oct 2011 include Japanese business establishments without regular basis Japanese staff. However, from the Oct 2010, being based on the defined criteria of the Japanese business establishments in India more carefully, it is observed a slight decline of Japanese Business establishments in some areas.
