Japanese Business Establishments in India – 2016

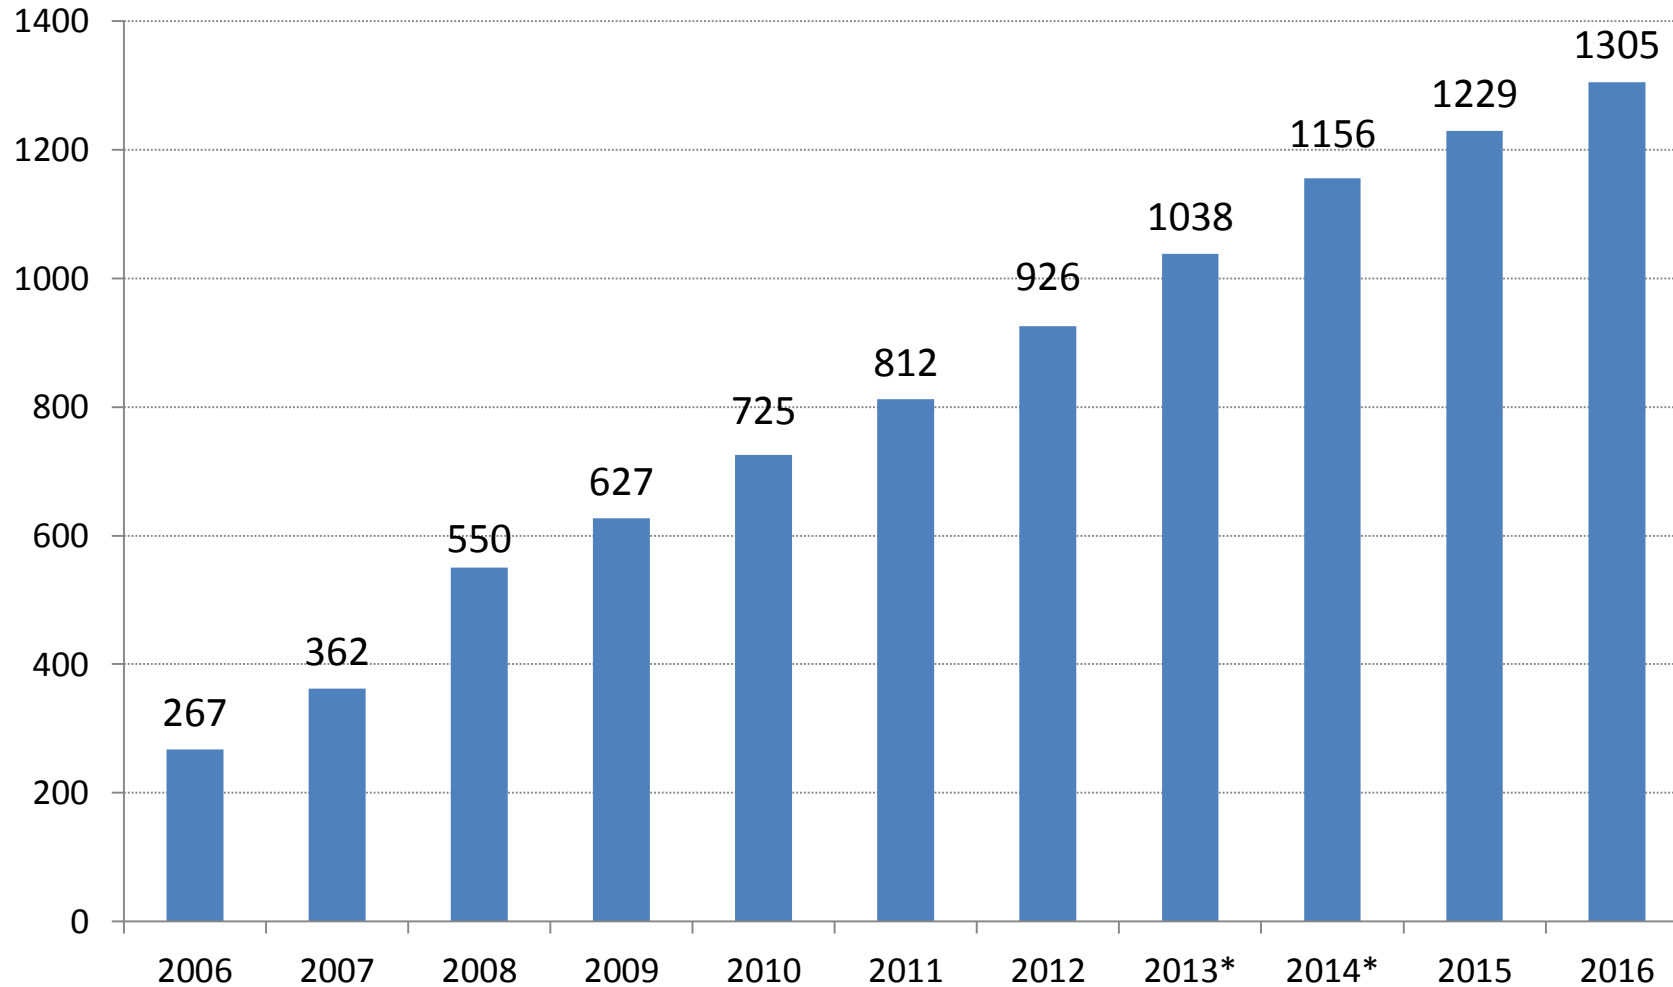

The Embassy of Japan and JETRO have updated the List of Japanese Business Establishments in India, as of October 2016, with the cooperation of Japanese Chamber of Commerce and Industries located in India. The summary of the result is as follows:

1. The total number of Japanese companies registered in India, as of October 2016, is 1,305.
2. The total number of Japanese business establishments in India, as of October 2016, is 4,590.
3. Over the last one year, the number of companies has increased by 76 (6% growth) as compared to 1,229, as of October 2015. Similarly, the number of establishments has increased by 173 (3% growth) as compared to 4,417, as of October 2015.
4. The 2016 survey result shows that the maximum increase has taken place in Haryana, both in the number of companies and establishments. While the manufacturing sector accounts for half of the Japanese companies and one third of the Japanese business establishments in India, it is observed that new types of sectors, which were not seen earlier, are now coming to India. There are also cases wherein, owing to downsizing factors, some insurance companies which operated earlier a large number of sales offices all over India have restructured those offices, and that share reduction of the Japanese companies has transformed the ownership.
