

Reception to encourage school-to-school exchanges between India and Japan held

“Reception to encourage school-to-school exchanges between India and Japan” was held on 6th August, at the Ambassador’s Residence, Embassy of Japan.

The aim of the reception was to promote academic exchanges by encouraging upper secondary school-to-school exchanges between India and Japan, through the visit to India by 5 Japanese upper secondary school teachers.

At the beginning of the event, H.E. Mr. Kenji Hiramatsu, Ambassador of Japan to India, delivered his opening remarks, in which he emphasized the importance of giving an impetus to people-to-people exchanges between Japan and India.

Thereafter, the Principal of the school that produced the mathematics genius, Ramanujan, delivered her remarks, which was followed by a speech delivered by the AI robot, which is made through an amalgamation of Japanese techniques.

Japanese universities, such as the University of Tokyo, Ritsumeikan University, and Japan Science and Technology Agency, based in India, also set up their booths at the event in order to promote Japanese education possibilities. It was a useful and informative occasion for the Indian upper secondary school officials to learn more about Japanese Universities.
