

Japanese Business Establishments in India

June, 2025

Embassy of Japan in India, Consulates-General of Japan and JETRO

About this list

The Embassy and Consulates-General of Japan in India, and JETRO, have jointly compiled the list, with the cooperation of Japanese chambers of commerce and industries in India. The findings are as follows:

(1) The **total number of Japanese companies registered in India is 1,434**, marked the increase compared to the previous year (1,399 in October 2023).

(2) The **total number of Japanese business establishments in India is 5,205**, with an increase of 248 establishments (5.0% increase) as compared to 4,957 in October 2023

(Please note that in case a company has business operations at multiple sites, each of them has a separate entry in this list for "business establishments". Kindly refer to the following "definition" for further details).

Definition of "Japanese Business Establishment" in India

In principle, any of the following is considered as a Japanese Business Establishment in this survey:

1. Liaison Office/ Branch Office etc. of a Japanese company in India (as a foreign entity)

2. Indian Subsidiary (Wholly Owned/ Joint Venture, its sub-subsidiary or sub-sub-subsidiaris) of a Japanese company(with direct or indirect shares of 10% or more by Japanese company), in the form of:

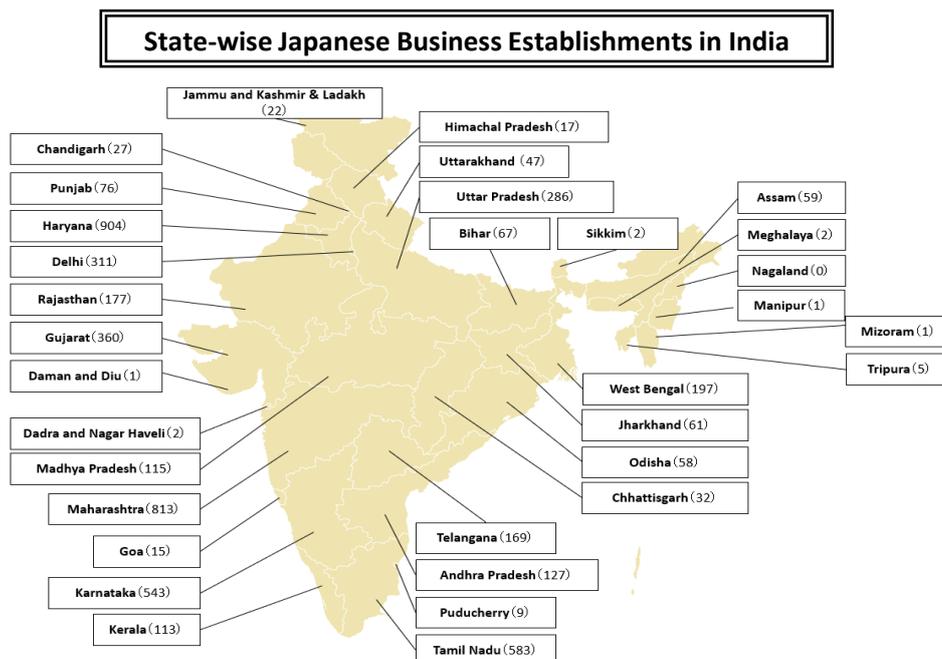

(A) Head Office, (B) Manufacturing Unit, or (C) Branch Office/ Business Office etc.

** Franchisees or dealers are not counted under this category.*

** In case of JVs, only those companies where the Japanese company has more than 10% shareholding, are counted under this category.*

3. Business Enterprise founded in India by Japanese national(s)(Japanese share is 10% or more)

◆ This list is arranged in alphabetical order as per the location.

(Note 1): Oct 2010 onwards, being based on the defined criteria of the Japanese Business Establishments in India as (1) Head office, (2) Factory, and (3) Branches etc also regulate to include establishment without regular-basis Japanese staffs, it is observed a slight decline of Japanese Business Establishments in some areas.

(Note 2): In order to capture the business scenario of Japanese Companies in India more precisely, all the Business Establishments (except franchisee and dealer) irrespective of regular-basis Japanese staffs are taken into consideration Oct. 2013 onwards. Consequently, some areas show a significant increase in numbers.

(Note 3): The increase in the number of Japanese business establishments during the one year (October 2013 to October 2014) under the survey is very large, mainly due to the following reasons: In case where a Japanese company forms a JV with an Indian partner, the newly formed JV will also have the already established direct branch offices of that Indian partner, which will result in the immediate increase of the total number of business establishments. There are several such cases found during the survey, especially in insurance and transport sectors. There were also quite a number of Japanese business establishments which have not been captured in our previous surveys.

(Note 4): The number of establishments in Delhi and Haryana is mentioned separately for 2013, 2014 and 2015.

(Note 5): The number of Japanese companies and establishments in 2013 and 2014 has been revised at the time of survey for 2015.

(Note 6): Due to the outbreak of COVID-19, there were companies which were unable to answer the survey. Hence, the data of the mentioned companies in 2019 was completetened by using 2018's data or web-based information. The decrease in the number of Japanese establishments during the one year (October 2018 to October 2019) under the survey is very large while the number of companies increase, mainly due to reorganization, the companies which became exception for the survey by decrease of Japanese shares, etc. which surpassed the number of increased establishments by new companies.

(Note 7): The increase in the number of Japanese business establishments during the one year (October 2021 to October 2022) under the survey is very large, mainly due to the new opening of establishments by already existing companies
